

4: Data

John H Maindonald

December 18, 2018

```
fig4.1 <- function(){  
  ## ---- date-labs ----  
  ## Labeling of graph: data frame jobs (DAAG)  
  library(DAAG, quietly=TRUE); library(lattice)  
  fromdate <- as.Date("1Jan1995", format="%d%b%Y")  
  startofmonth <- seq(from=fromdate, by="1 month", length=24)  
  atdates <- seq(from=fromdate, by="6 month", length=4)  
  xyplot(BC ~ startofmonth, data=jobs,  
         scale=list(x=list(at=atdates,  
                           labels=format(atdates, "%b%y"))))  
}
```
